2.1. Career Levels of an Agile Practitioner

The Agile Practitioner career path includes multiple levels, allowing practitioners to develop their expertise or expand their scope through people management responsibilities.

Practitioners may enter at different levels depending on their experience, with pathways available to either advance in practice or transition into management.

2.2. Career Levels of an Agile Practitioner

- **Associate Agile Practitioner** An entry-level role focused on foundational skills in agile practices and delivery support.
- **Agile Practitioner** A fully established practitioner who independently supports teams and contributes to agile delivery.
- Senior Agile Practitioner An experienced professional demonstrating advanced agile competencies, often guiding teams and mentoring associates.
- Agile Practitioner People Manager A role focused on both agile practice and people management, overseeing the development and performance of practitioners within a team.
- **Principal Agile Practitioner** A highly skilled expert responsible for leading strategic agile practices and developing agile maturity across teams.
- **Head of Practice** This senior role oversees groups of Agile Practitioner People Managers and their practitioners, shaping agile delivery practices, managing talent development, and ensuring alignment with the organisation's strategic goals.

2.3. Career Levels of an Agile Practitioner

Pathways for Progression:

- **Practice-Focused Path**: Practitioners focused on deepening expertise can progress towards the Principal Agile Practitioner level, leading high-impact initiatives and influencing strategic decisions.
- **People Management Path:** Practitioners interested in leadership can transition to the Agile Practitioner People Manager role, with opportunities to manage teams, ultimately progressing towards the Head of Practice role.

Each division is typically led by a Head of Practice, who oversees the development of both practitioners and people managers, ensuring alignment across teams and maintaining a high standard of agile delivery.

This career journey is supported by the Agile Growth Pathway, which offers tailored resources and guidance to aid practitioners, people managers, and Heads Practice in talent development, skill enhancement, and leadership readiness.

6. Origin Story – How We Got Here

The following slides outline the method and process by which the Agile Growth Pathway and its resources were developed.

6.1. What We Did – Role & Stance Matrix

- **1. Role Comparison:** We used AI to quickly compare and identify distinctions across roles within the Agile Practitioner to Agile Practitioner People Manager/Principal career levels to create a basic matrix.
- **2. Aligning Role Descriptions with Stances:** We then matched Role Descriptions to the Agile Coaching Growth Wheel (ACGW) stance definitions to expand the matrix.
- **3. Agile Practitioner Role & Stance Matrix**: The resulting matrix illustrates how practitioners can evolve stances and competencies, helping colleagues to identify focus areas for deepening or broadening their skills.

⚠ Note: The matrix does not imply that acquiring a set number of competencies triggers promotion. It is designed to illustrate transferable competencies across roles and levels.
